INTERNATIONAL YEAR OF  
**MILLETS**  
2023

THE YEAR OF

**NUTRI-CEREALS**

Rich in heritage, full of potential

**Eat Right  
India**

सही भोजन. बेहतर जीवन.

INTERNATIONAL YEAR OF  
**MILLETS**  
2023

The United Nations General Assembly at its 75th session in March 2021 declared 2023 the International Year of Millets (IYM 2023). FAO is the lead agency for celebrating the Year in collaboration with other relevant stakeholders. Millets can grow on arid lands with minimal inputs and are resilient to changes in climate. They are therefore an ideal solution for countries to increase self-sufficiency and reduce reliance on imported cereal grains.

#IYM2023 will be an opportunity to raise awareness of, and direct policy attention to the nutritional and health benefits of millets and their suitability for cultivation under adverse and changing climatic conditions. The Year will also promote the sustainable production of millets, while highlighting their potential to provide new sustainable market opportunities for producers and consumers.

“ Ministry of Agriculture & Farmers Welfare is the nodal for International Year of Millets (IYoM)-2023 celebrations. In fact, India is now taking lead and popularizing the theme at the National and International level through various campaigns. India to emerge as a Global hub for Millets.

**Shri. Narendra Modi**  
**Hon'ble Prime Minister of India**

A once-in-a-century pandemic followed by a conflict situation has shown that food security is still a concern for the planet. At such a time, a global movement related to millets is an important step, since they are easy to grow, climate resilient and drought resistant. Raising awareness to create 'Millet Mindfulness' is an important part of this movement.

**Dr Mansukh Mandaviya**  
**Hon'ble Minister of Health and Family Welfare of India**  
**Hon'ble Minister of Chemicals and Fertilizers**

Millets are ancient food grains and amongst the first plants domesticated for food, with the earliest evidence of millet cultivation found in Indus civilization as far back as 3000 BC. As an integral part of Azadi ka Amrit Mahotsav, the Government of India is celebrating IYOM, 2023 to make it a peoples' movement so that Indian millets, recipes, and value-added products are accepted globally. Ever since India got the mandate from the UN to promote the year of 2023 as the International Year of Millets, it is working in mission mode to take millets to kitchens across the world.

**Dr. Bharati Pravin Pawar**  
**Hon'ble Union Minister of State for Health and Family Welfare**

मिलेट्स दुनिया के सबसे पुराने उगाये जाने वाले अनाजों में से एक है। ये प्रोटीन, फाइबर, विटामिन, आयरन जैसे खनिजों से भरपूर है और पोषण की कसौटी पर एक बेहतर विकल्प हैं। इनके स्वास्थ्य लाभ को देखते हुए ही इन्हें सुपर फूड्स की संज्ञा भी दी जा रही है। भारत को खाद्य और पोषण सुरक्षा की तरफ ले जाने में मिलेट्स बहुत बड़ी भूमिका अदा कर सकते हैं। मिलेट्स उपभोक्ता, किसान और जलवायु तीनों के लिये बेहद ही लाभकारी है। सरकार की यह पहल मिलेट्स के वैश्विक उत्पादन को बढ़ाने में सहायक होगी साथ ही भारतीय व्यंजनों में मिलेट्स को महत्वपूर्ण रूप से स्थापित करने का अवसर प्रदान करेगी। आज दुनिया भर में मिलेट्स का क्रज बढ़ रहा है। भारत की पहल पर संयुक्त राष्ट्र संघ ने वर्ष 2023 को इंटरनेशनल इयर ऑफ़ मिलेट्स घोषित किया है। माननीय प्रधानमन्त्री जी ने भी अपने संदेश में इंटरनेशनल इयर ऑफ़ मिलेट्स 2023 को सफलतम बनाने के लिए मिलेट्स की खेती एवं सेवन को बढ़ावा देने के लिए अभियान चलाने की बात कही है। हम सभी मिलकर इस अभियान को आगे बढ़ायें एवं इसे एक जन आंदोलन का रूप दें। इस अभियान को समर्पित, FSSAI द्वारा जारी किया जा रहे संदेशयुक्त कैलेंडर के लिए पूरी टीम को शुभकामनाएं देती हूँ।

**Shri. Rajesh Bhushan, IAS**  
**Secretary (Health & Family Welfare) and Chairperson, FSSAI**

मिलेट्स भारतीय संस्कृति का अभिन्न अंग है। ये धरोहर हैं हमारी पाँच हज़ार वर्ष पुरानी खाद्य संस्कृति की। आज भी हमारी पुरानी पीढ़ी इससे जुड़े ज्ञान को समेटे है, जिसे हमें आधुनिक तकनीकों के आधार पर अधिक व्यापक करना है और अपनी नई पीढ़ी से जोड़ना है। मिलेट्स की व्यापक खेती और प्रसंस्करण ना सिर्फ़ खेतिहर वर्ग को आय के नए साधन देगा, बल्कि जनमानस को सुपोषण एवम् बेहतर स्वास्थ्य का विकल्प भी देगा।

**Shri. G. Kamala Vardhana Rao, IAS**  
**Chief Executive Officer, FSSAI**

Millets are integral part of cultural ethos of Indian subcontinent. Presence of millets are traced even dated back in Harappan Civilisation. In today's milieu importance of millets have grown exponentially to manage lifestyle related issues and to stay fit. Thus marking 2023 as International Year of Millets is one step forward in the right direction where amalgamation of traditional wisdom and modern science is the need of the hour.
